

Project Design Phase-II
Data Flow Diagram & User Stories

Date	03 October 2022
Team ID	PNT2022TMID30540
Project Name	Real Time Communication System Powered by AI for Specially abled
Maximum Marks	4 Marks

Data Flow Diagrams:

A Data Flow Diagram (DFD) is a traditional visual representation of the information flows within a system. A neat and clear DFD can depict the right amount of the system requirement graphically. It shows how data enters and leaves the system, what changes the information, and where data is stored.

Flow Diagram:

User Stories

User	Functional Requirement (Epic)	User Story Number	User story / Task	Acceptance Criteria	Priority	Release
Customer (Specially abled persons)	Registration	USN -1	As a user, I can register for the application by entering my email, password, and confirming my password.	I can access my account / dashboard.	High	Sprint-1
		USN -2	As a user, I will receive confirmation email once I have registered for the application.	I can receive confirmation email & click confirm.	High	Sprint1-1
		USN -3	As a user, I can register for the application through Facebook.	I can register & access the dashboard with Facebook Login.	Low	Sprint-2
		USN -4	As a user, I can register for the application through Gmail.	I can register the application using Gmail with details linked to the Gmail.	Medium	Sprint-1
	Login	USN -5	As a user, I can log into the application by	Can enter these credentials either by manual or by	High	Sprint-1

			entering email & password.	auto filling depends on the case.		
	Dashboard	USN -6	As a user, I want to know about my data Which I have given to see them visually appealing.	Can see the user data after successfully login onto the application.	Medium	sprint-1
Customer (Web user)	Registration	USN -7	As a user, I can register for the application through web by entering mobile number / Gmail, password and confirming it.	I can access my account / dashboard through web.	High	sprint-1
Customer Care Executive		USN -8	As a user, I can get any support if needed by dialling the call or clicking the support.	After completing the registration, the user can avail this service	Medium	sprint-1
Administrator		USN -9	The company should take care of the admin functionalities.	Admin should have access to each other information registered by the user.	High	sprint-1
Sign Up		USN -10	As a user, I should need to sign up if I don't haven't	The credentials used for signing up should be unique.it is not	High	sprint-1

			registered for the account earlier.	used by any other users.		
Wishlist		USN -11	As a user, I am before avail for the service which can be kept aside.	As a user, I can review and use the services if needed	low	sprint-2
Enrolled		USN -12	As a user, I can use the service after enrolling. So that the user can know and use.	As a user, it is quite appealing.	Low	sprint-2
